
Door Pulls & Plates Guide

The Door Hardware Professionals

Canaropa is a leading contract manufacturer, importer and distributor of quality commercial, residential and architectural door hardware. The reliable choice of professionals, developers and architects – our products are found throughout North America in private homes, residential developments, offices, commercial and industrial buildings and resorts.

Since 1954, Canaropa has been offering an extensive selection of reliable, quality door hardware, including door closers, locks, hinges, exit devices, security hardware and more. Coupled with regional offices, warehouses, and large inventory, we provide fast and reliable service to our customers from coast to coast.

Canaropa is focused on delivering the best possible service to its customers. With our dedicated team of experienced door hardware professionals, management and sales teams – we work hard to meet the needs of our customers by developing new products, delivering consulting services and staying current with trends in the market.

Professional & Technical Services

Whether it's a small residential project or a large multi-building development — Canaropa's hardware professionals can support you from the design stage all the way through to final construction.

Canaropa offers a variety of complimentary professional consulting and technical services to architects, designers and developers for commercial, residential, industrial, institutional, or hybrid projects:

PROFESSIONAL SERVICES

- Door hardware specification writing, review and conversion.
- Architectural hardware consultation.
- Budget preparation.
- Review substitution requests.

TECHNICAL SERVICES

- Technical project support and troubleshooting.
- Development and planning of common and high-security keying systems.
- In-house keying services – including high-security cylinders.
- Engraving services.

Our experienced hardware professionals are happy to help. They are well versed on local and national building codes, the unique needs of various types of facilities and egress requirements.

Take advantage of our experience and product knowledge today.

/BOX, /BAG	Number of UNITS found in an inner carton or bag
/CASE	Number of BOXES or UNITS found in an outer (shipping) carton

The image displays three distinct architectural door pull designs against a dark, neutral background. The top pull is a T-shaped bar with a wide horizontal top section and a narrower vertical stem. The middle pull is a long, smooth cylindrical bar. The bottom pull is a rectangular bar with a wide horizontal top section and a narrower vertical stem, similar in shape to the top pull but with a different profile. All three pulls have a brushed metal finish and are arranged diagonally from the top-left towards the bottom-right.

ARCHITECTURAL
DOOR PULLS

DOREX 19R-E SERIES LADDER PULLS, ROUND, 1 1/4" DIAMETER

APPLICATIONS

- For wood or metal doors 1 3/8–2 1/4" (35–57 mm) thick
- For glass doors 5/16–1/2" (8–13 mm) thick

FEATURES

- 304 Stainless steel
- Available in paired or single pulls
- Single pulls are thru-bolt mounted with round end-caps
- All necessary mounting hardware included
- Matching washers for different finishes included
- Packaged in an eco-friendly, fully recyclable, box
